

ADP Workstream 2:
Facilitators' input to facilitated meeting on 10 June
Version of 9 June 2015 at 23:00

Preamble

Technical examination process:

- General:
 - Continuation under existing bodies (e.g. SBI, SBI/SBSTA, COP)
 - Party-driven approach to identifying areas to be addressed in technical expert meetings
 - Improved access and participation by developing country experts
 - Development of online menu of policy options
 - Launch of technical examination process for adaptation
 - Input into accelerated implementation process
- Enhanced high-level engagement:
 - Appointment of co-chairs
 - Convening of annual meetings to provide a space for announcing actions, voluntary initiatives, and coalitions
 - Invitation to non-State actors to participate
- Technical paper, summary for policymakers, and other activities:
 - Request to secretariat to update technical paper
 - Request to secretariat to publish summaries for policymakers at least three months before relevant events, containing policy options for developed and developing countries
- Convention bodies, international institutions, and non-State actors:
 - Encouragement to Convention bodies, international institutions, and non-State actors to cooperate in facilitating the implementation of policy options and to report on their efforts in their annual report to the COP
 - Request to secretariat to convene an inter-convention representative meeting on responding to the technical expert meetings
 - Mandate to Convention bodies to provide support to developing countries to undertake their nationally appropriate mitigation actions
- Review
 - Periodic review of effectiveness

Accelerated implementation process:

- Increased mitigation commitments/pledges by developed country Parties:
 - Immediate and early ratification of the Doha amendment to the Kyoto Protocol

- Removal of conditions
 - Taking of additional actions
 - Enhanced delivery of support from developed country Parties to developing country Parties:
 - Achievement of the US\$100bn goal in 2020 through setting and reaching milestones
 - Transfer of environmentally sound technologies to facilitate their further deployment, and allocation of resources for the removal of barriers in accessing such technologies
 - Increased capacity-building support
 - Transparency of finance and MRV of support
 - Undertaking of additional activities:
 - Sharing of experiences and taking stock of progress to date
 - Facilitation of further measures to prepare and implement nationally appropriate mitigation actions by developing country Parties, supported by developed country Parties
 - Assessment of the adequacy of financial, technology, and capacity-building support from developed country Parties to developing country Parties
 - Identification and development of financial instruments to mobilize additional finance from public and private sources to support early and voluntary action
 - Increased voluntary cancellation of credits issued under the clean development mechanism (CDM), by Parties and non-State actors
 - Greater recognition of economic and social value of early action taken on a voluntary basis
-
