

Jobs! Jobs! Jobs!

Projected renewable energy jobs under AEMO renewable energy zones

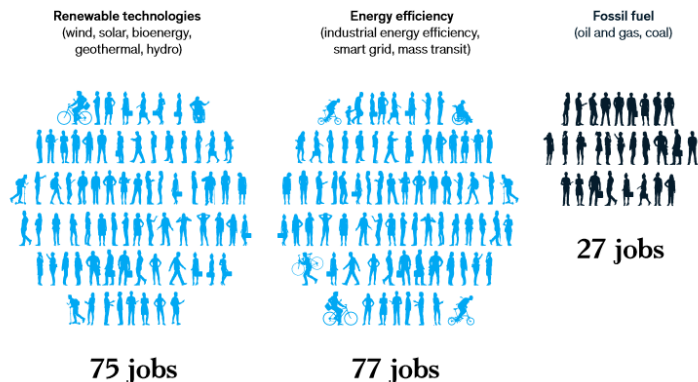

“...in 2019 the renewable energy industry employed over 25,000 workers and that figure could rise to 44,000 by 2025.”

Clean Energy Council

Government spending on renewable energy and efficiency jobs compared to fossil fuels

Jobs created, directly and indirectly,¹ per \$10 million in spending

“An econometric study of government spending on energy technologies showed that spending on renewables creates five more jobs per million dollars invested than spending on fossil fuels”

McKinsey and Company | May 2020
