

The background image is an aerial photograph of a coastal area. On the left, the ocean is a vibrant turquoise color with visible ripples and waves. A narrow strip of light-colored sand runs along the coastline. The right side of the image shows a sandy beach with some scattered debris or small rocks. The overall scene is bright and suggests a tropical or subtropical environment.

LUMARE

why look at OTEC in indonesia

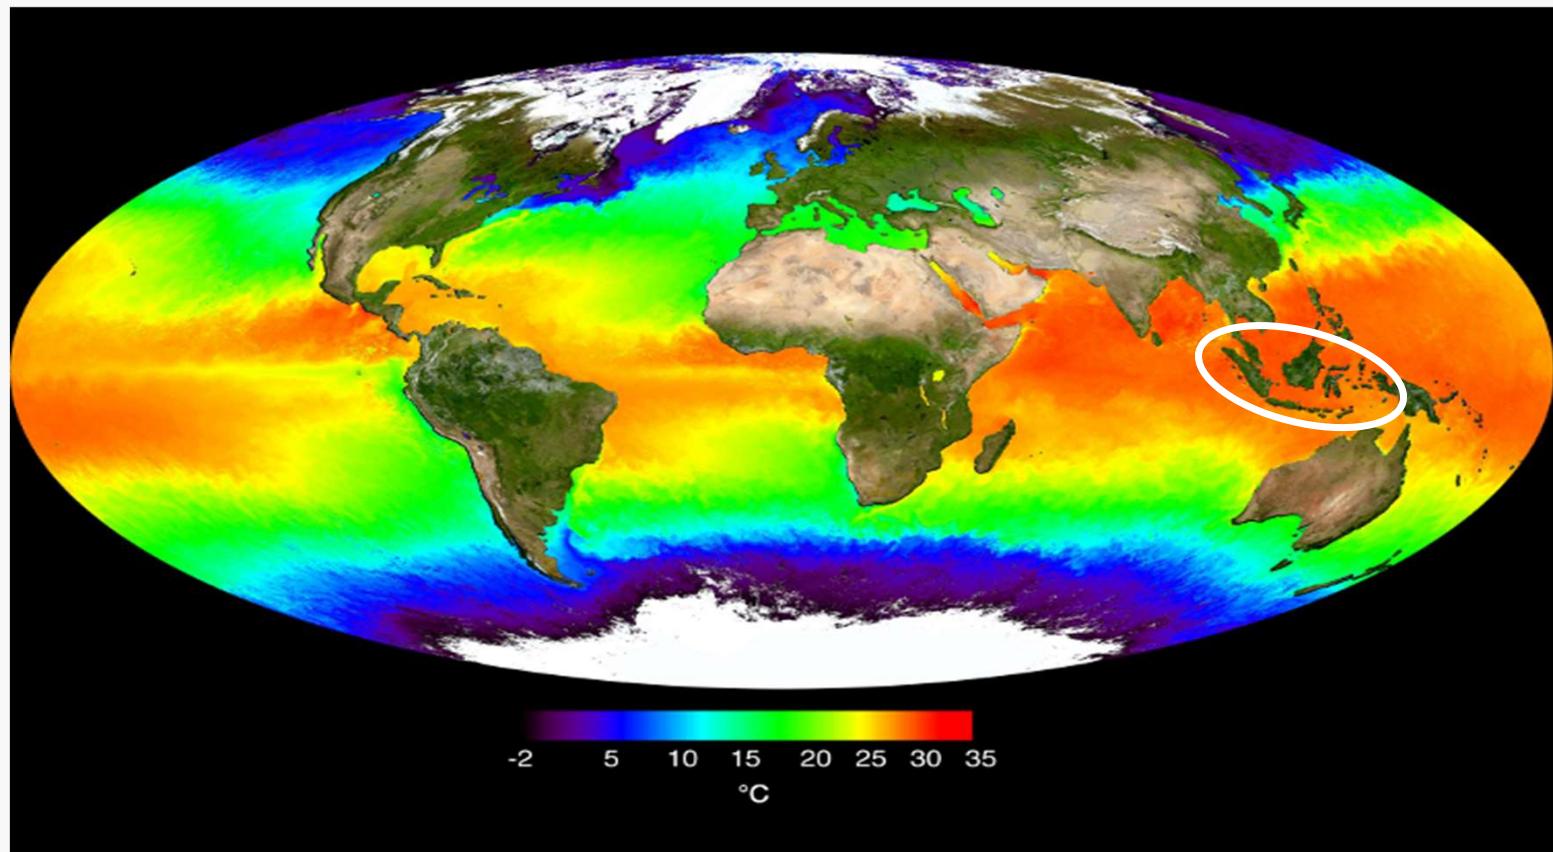

Indonesia's 34 provinces

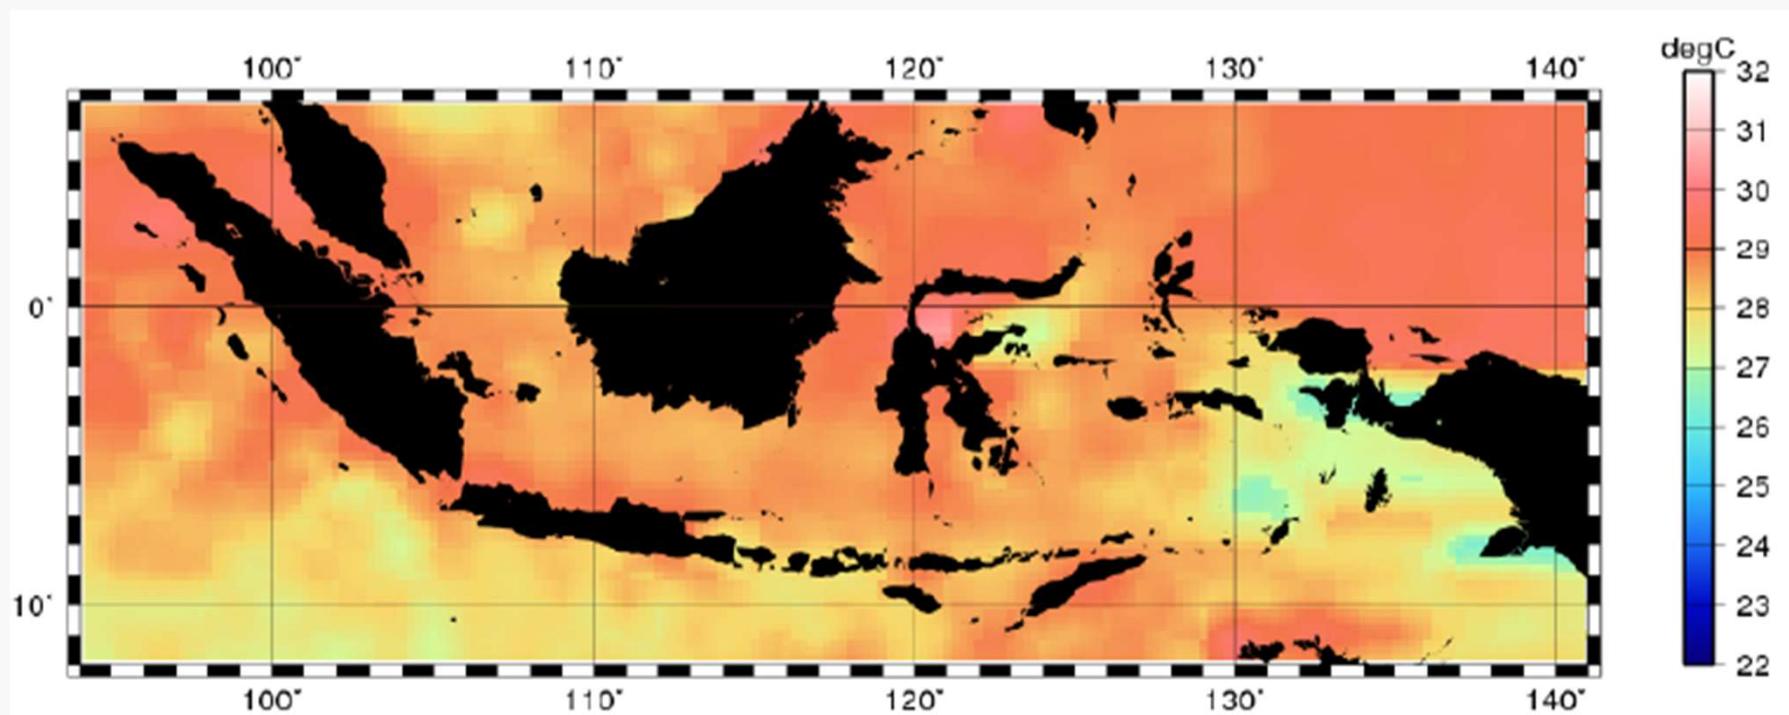

accessible deep water close to coast lines

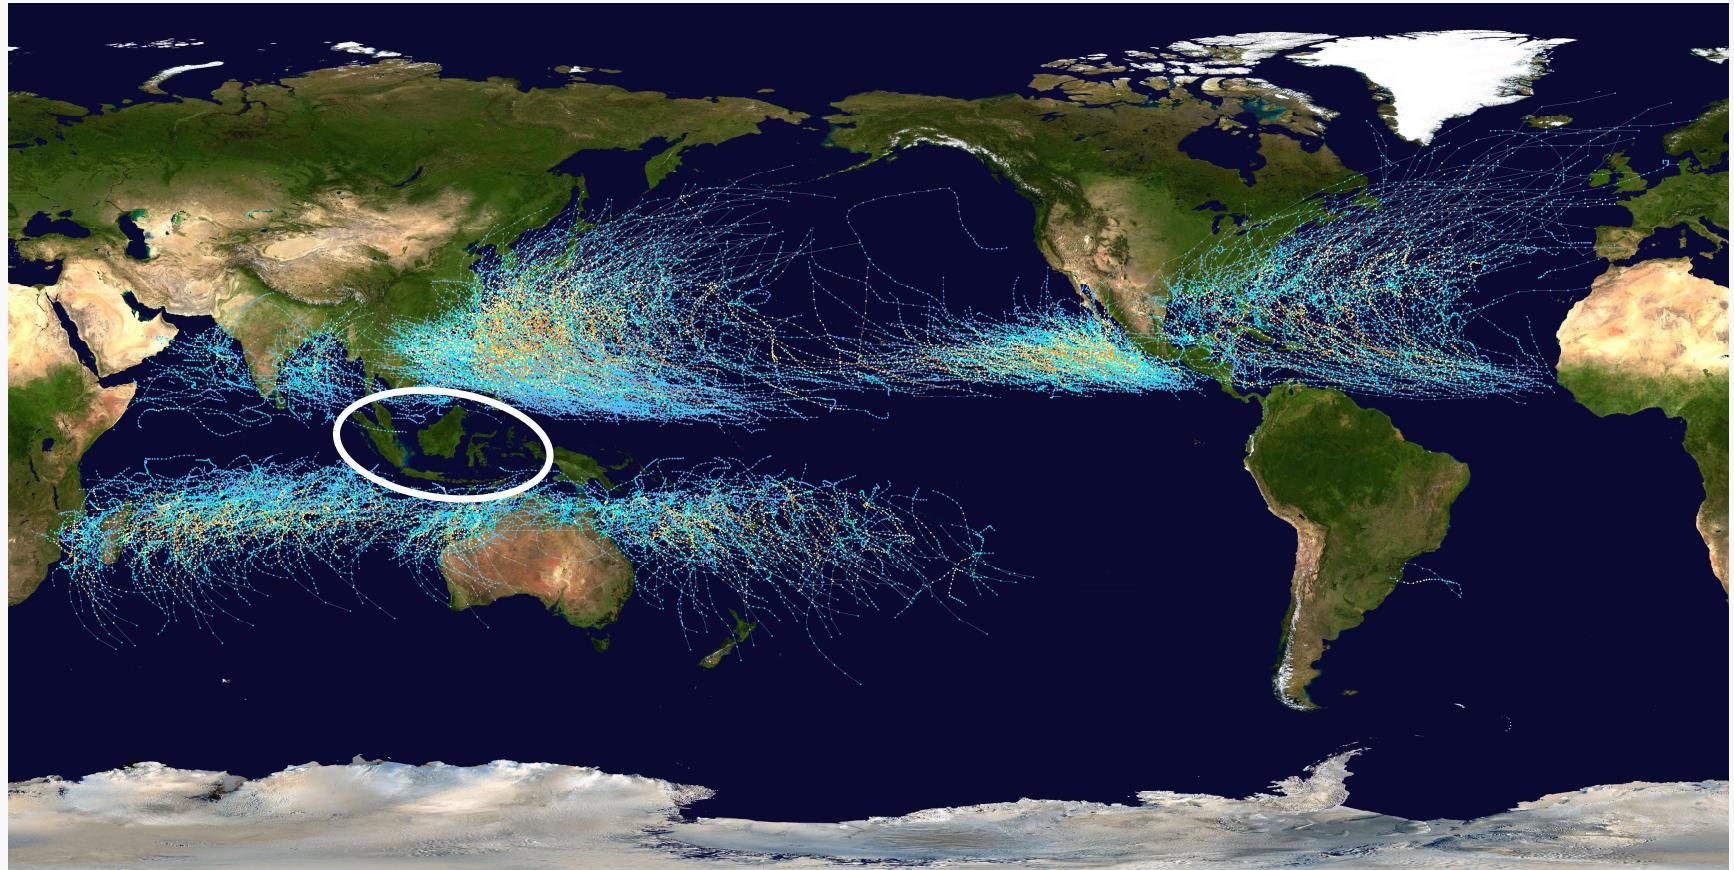

high surface sea water temperatures

high surface sea water temperatures

historically not a typhoon area
