

Donor country European Union
Project/programme title Capacity building on business opportunities for CDM projects in China - 2004
Project duration 20 months
EC contribution to Project budget €0.18 million
Main proposer CIRPS - University of Rome "La Sapienza"-Italy In partnership with: GEI - Global Environmental Institute – China IST - Instituto Superior Tecnico – Portugal HELIO International – France
Technology transferred This project aims to deliver local level capacity building activities in carbon trading for private stakeholders in China. It aims to meet the objectives of the Pro Eco programme with the achievement of high environmental standards and the facilitation of local implementation of international environmental agreements in the context of GHG. Through the exchange of good practices, policies, systems and technologies for GHG emissions reduction, the cooperation between countries of the EU and China can be strengthened. The thematic priority of this capacity building programme is addressing GHG, developing awareness of the private sector, local institutions and NGO's dealing with environmental issues, particularly in urban areas and in carbon trading system (Project Purpose). The project aims to improve access to know-how and international assistance of Chinese stakeholders. The project aims to gather information into an accessible medium including a database and handbook, combining the DNA (national Chinese authority) data, Chinese experience and EU know-how, experience and expertise. A series of training/workshop/seminars aimed at capacity building of interested private sector and conducted in full cooperation with the DNA are planned for promotion of CDM and using the carbon trading system.
