

Alf Hartzenburg - Biography

(February 2017)

Alf Hartzenburg is the National Project Manager of the Industrial Energy Efficiency Project in South Africa, and has been part of the project from the beginning, having joined the NCPC-SA in 2011, following a 35 year career in industry.

Alf, studied Civil Engineering and Project Management at the University of Cape Town and is a Certified Energy Manager (CEM), Measurement & Verification Professional (CMVP) with the Association of Energy Engineers and holds Diplomas in Business Administration, Production Management, Textiles and Financial Management.

Alf conducted numerous energy system optimisation assessments and facilitated many EnMS implementation projects in South Africa and Myanmar since 2009. Through his work in the IEE Project Alf supported successful ISO 50001 certification projects at industrial plants during 2013/16.

He is a European Energy Manager (Eurem) and United Nations Industrial Development Organisation (UNIDO) expert and trainer in Energy Management, Steam, Fan, Compressed Air and Electric-Motor Systems Optimisation and co-developed RECP and Chiller System Optimisation training material for UNIDO and the NCPC-SA.

Alf serves as Special Advisor on the South African Government's Parliamentary Portfolio Committee on Energy (PCE) and also serves on the Energy Steering Committee (PS07) and the Climate Change Response Forum (PSG4) of the Provincial Government of the Western Cape. He received the prestigious Energy Efficiency Patron award in 2016 from the Southern African Association for Energy Efficiency (SAEE) for his contribution to energy efficiency in South Africa.
