## 19:40 – 20:00 Questions and answers

Side Event Room 4 - Warmia  
Wednesday, 5 December 2018  
18:30-20:00

The UNFCCC Technology Mechanism supports countries in developing and transferring climate technologies to reduce greenhouse gas emissions and adapt to a changing climate. This side event will present the key technology themes and achievements of its two bodies in 2018: the Technology Executive Committee and the Climate Technology Centre and Network. An update will also be provided on the ongoing collaboration between the Technology Mechanism and the Financial Mechanism of the Convention. The event will also launch the latest publications of the TEC.
