

THE NDC AND TNA NEXUS- PERSPECTIVES FROM THE NDC PARTNERSHIP

December 11, 2019

TODAY'S PRESENTATION

1. NDC Partnership Overview of Mission and Principles
2. Country Engagement
3. Technology Needs and NDC Implementation on Country Level
4. Knowledge and Learning
5. Finance
6. Partnership Progress

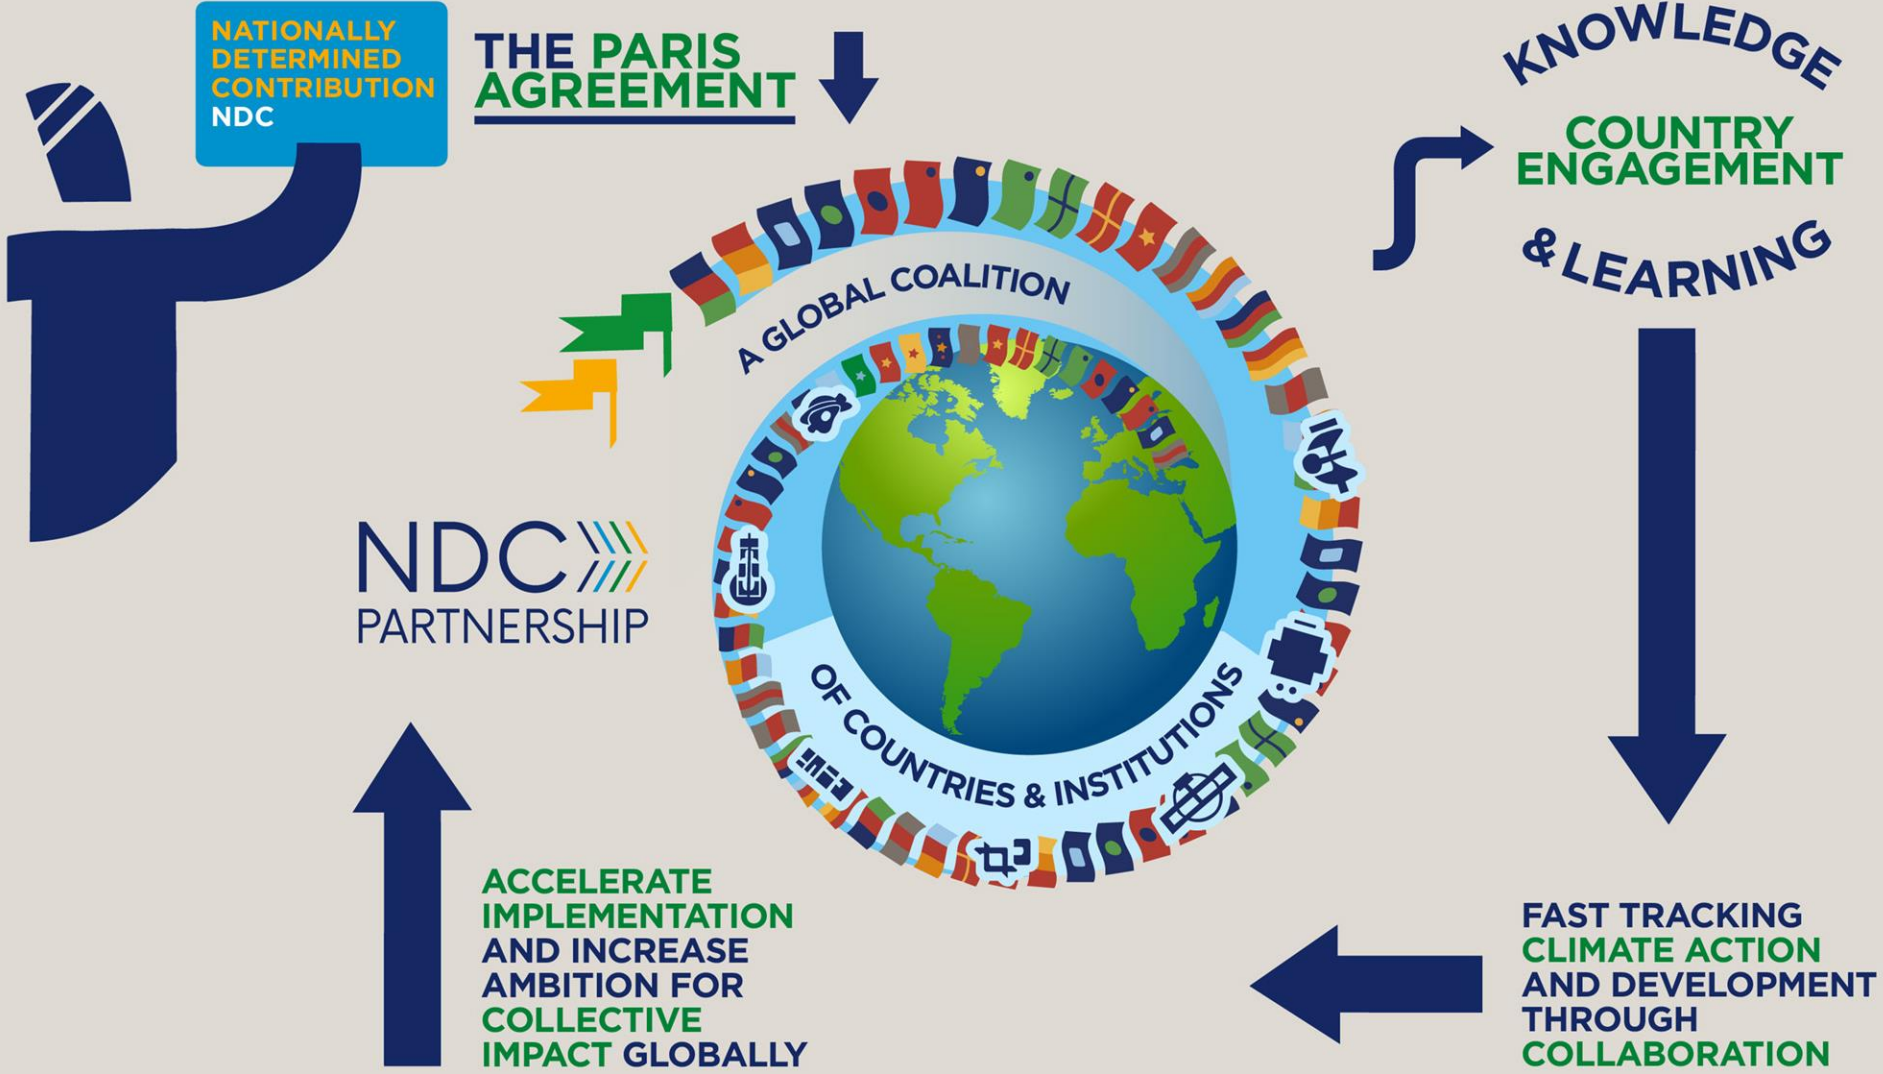

WHO WE ARE

An Overview of the NDC Partnership

WHO WE ARE

We are a global coalition of countries and institutions collaborating to drive transformational climate action while enhancing sustainable development

MEMBERS

104 Countries

MEMBERS

35 International Institutions

MEMBERS

25 Associate Members

GOVERNANCE

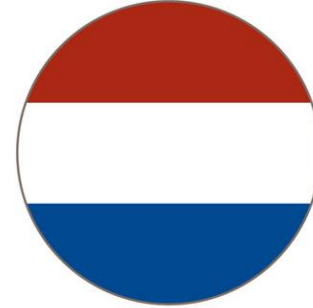

Co-Chairs

Costa Rica

Minister Rodriguez

Netherlands

Minister Kaag

Steering Committee

Denmark

Sweden

France

Germany

Japan

Morocco

Republic of
Marshall
Islands

Uganda

Viet Nam

Ex Officio members as hosts of the Support Unit

United Nations
Climate Change

OBJECTIVES

Facilitate improved learning, collaboration, and coordination to:

- Enhance visibility of and access to existing NDC support programs
- Generate better designed, more responsive NDC support programs
- Create better alignment between climate and development agendas
- Increase political momentum for Paris Agreement implementation
- Promote transformational climate policies

GUIDING PRINCIPLES

- Support country-driven processes
- Promote long-term climate action
- Enhance efficiency and responsiveness
- Build in-country capacity
- Improve coordination
- Enhance integration into national planning
- Advance adaptation and mitigation
- Align development and climate change
- Support multi-stakeholder engagement
- Promote gender equality

HOW WE WORK

The NDC Partnership in Action

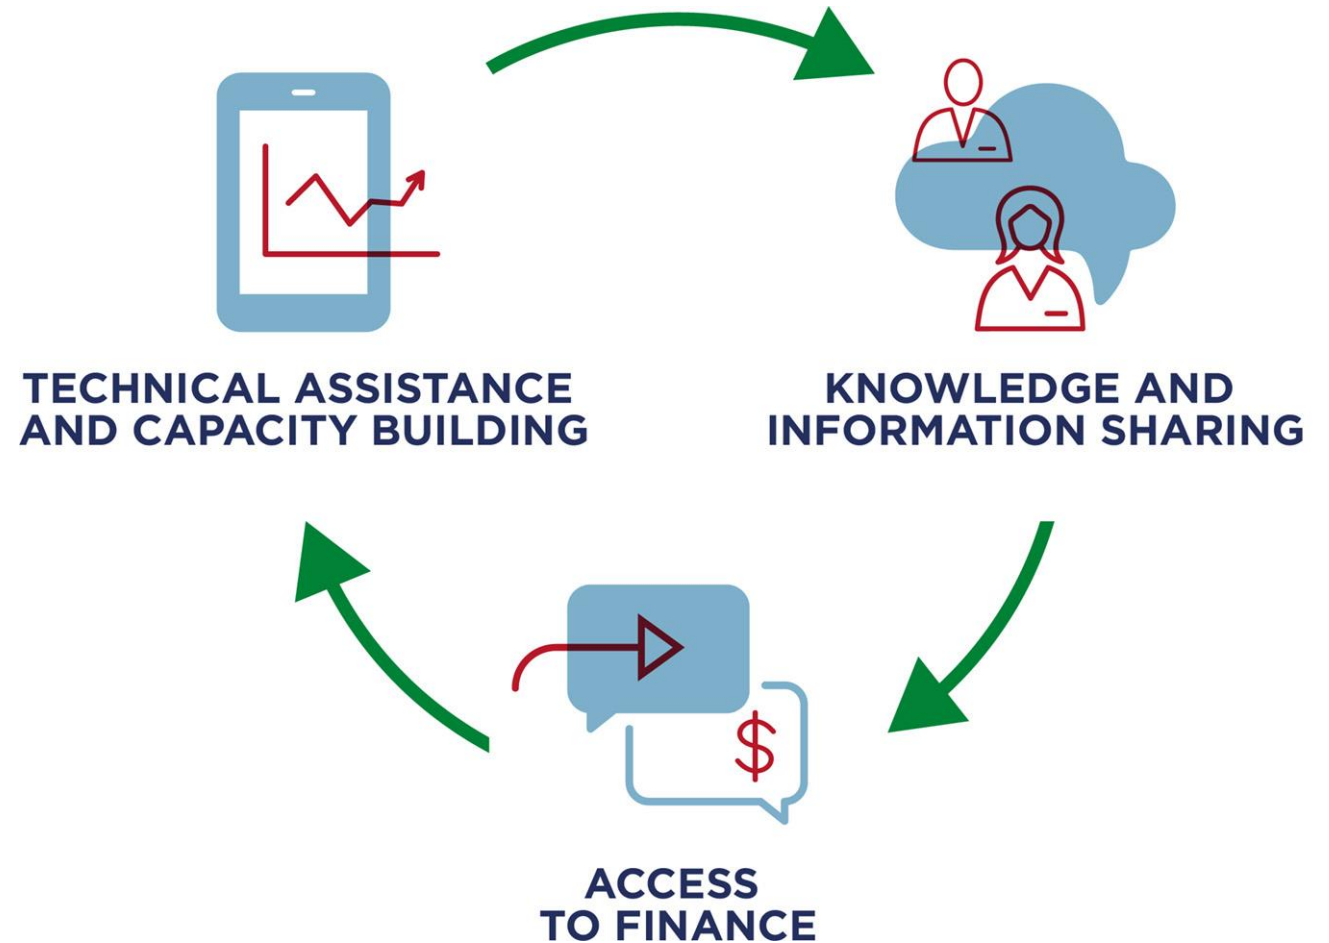

HOW WE SUPPORT COUNTRIES

TWO PILLARS:

1. Country Engagement
2. Knowledge and Learning

CROSSCUTTING:

1. Finance

COUNTRY ENGAGEMENT

COUNTRY ENGAGEMENT

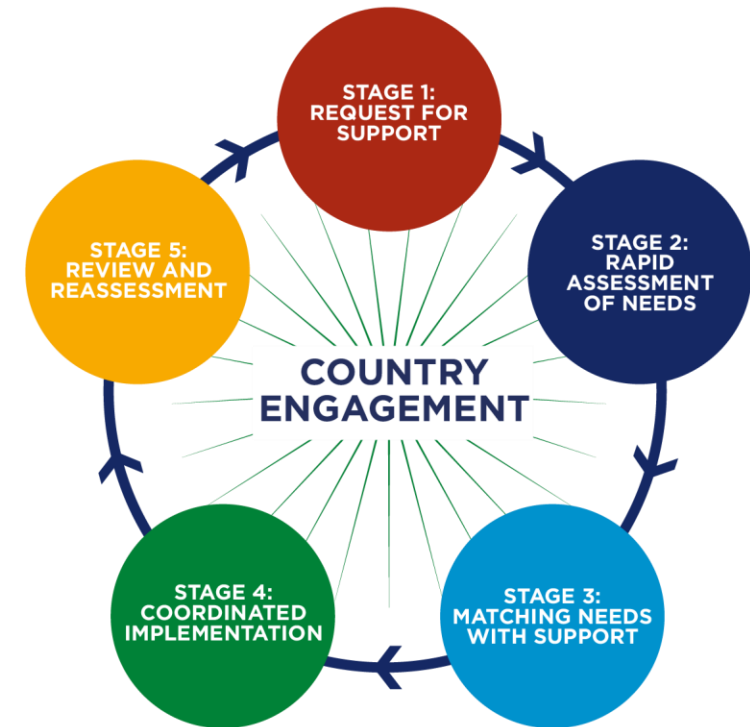

The Country Engagement process is an adaptable five-step model to establish, operationalize, and track Partnership activities at the country level.

It provides a framework where member country needs are matched to the coordinated support of the Partnership's members and beyond.

Rules of Engagement:

1. Country driven
2. Cross-sectoral and multi-stakeholder process
3. Alignment with existing National Strategies and sectoral plans

KNOWLEDGE

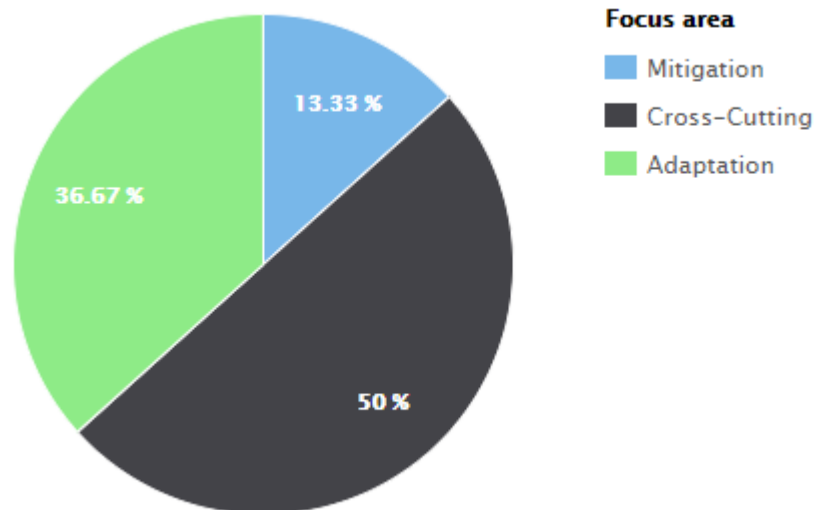

& LEARNING

TECHNOLOGY NEEDS AND NDC IMPLEMENTATION ON COUNTRY LEVEL

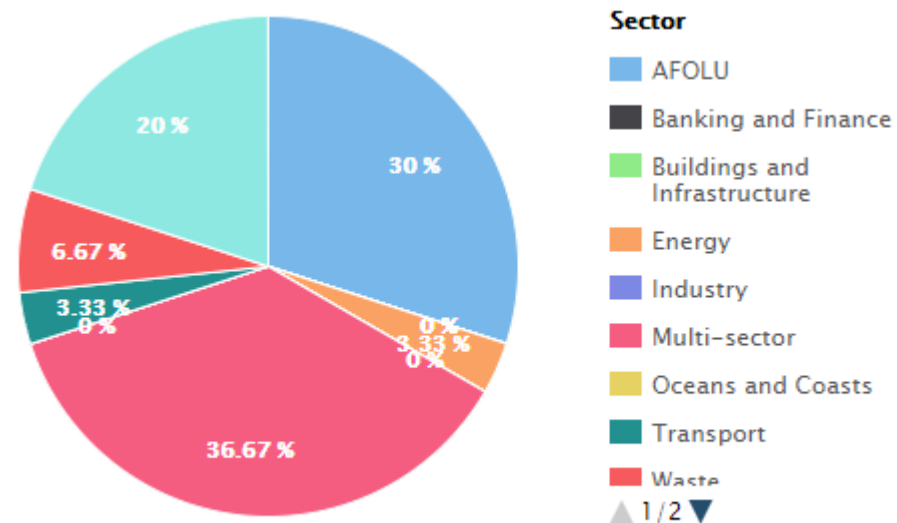

EXAMPLES FROM COUNTRY ENGAGEMENT

Technology Needs requested by Focus Area and Sector

Partnership Plan per Focus Area

Partnership Plan per Sector

*Technology is classified as the application of scientific knowledge and tools for project implementation and captures technology transfer.

TECHNOLOGY NEEDS BY SECTORS

Water and Waste Management

Ethiopia: Knowledge / Peer to peer exchange visit to learn about best practices in water efficiency technologies

Jordan: Design and construction of semi-mechanized waste sorting unit with capacity of 200 tons per day, which can be expanded.

TECHNOLOGY NEEDS BY SECTORS

Agriculture, Forest and other Land-use

Jordan: Mechanize Technology for adaptation to climate change by strengthening the water and agricultural sectors.

(Supported by Sweden)

Mozambique: Strengthening the role of women producers as training and technology transfer agents.

TECHNOLOGY NEEDS BY SECTORS

Energy

Republic of the Marshall Islands:
Development of an Energy Roadmap that will focus on the electricity sector and potential electrification of the transport sector to ensure efforts reach out to 2030 with a view beyond that, while understanding that plans may change based on technological developments past 2030

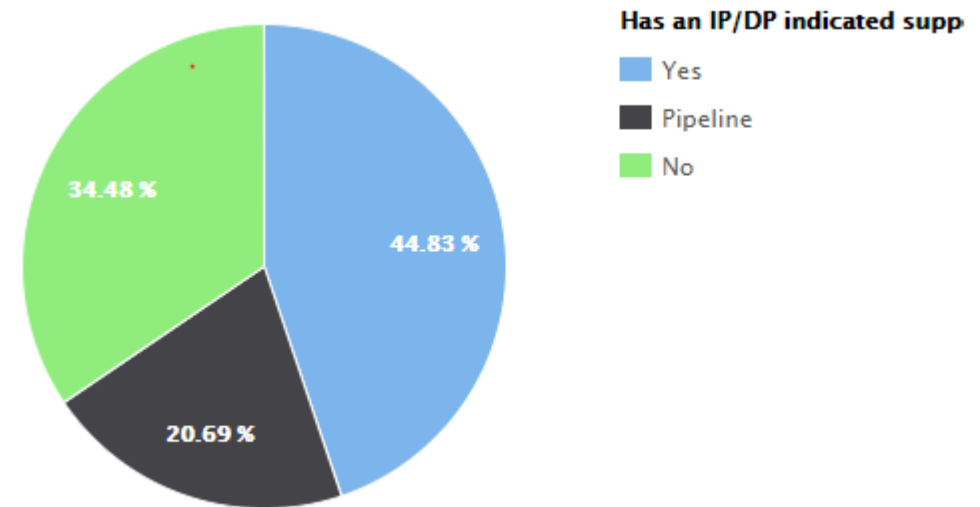

(Supported by the World Bank Group)

SUPPORT PROVIDED BY THE PARTNERSHIP

The countries received support for their Partnership Plans for technology related requests:

- **44.83 %** indicated support (FAO, World Bank and UNDP)
- **20.69 %** are still under development (AFD, FAO ad CTCN)

COUNTRY ENGAGEMENT

- **15 Partnership Plans approved by Government and under implementation**
 - **39+ partners** delivering support working under single framework
 - **Mainstreaming NDCs into governments national development plans and sectoral strategies**
 - Changing the **legal framework** for NDC implementation
 - Developing domestic **finance and accounting systems**
 - **Preparing project** pipeline for GCF, World Bank on water, energy, transport, forestry, agriculture, waste
 - **Improving data** for NDC revision process
 - Strengthening **national environmental funds**
 - **Designing, establishing, and strengthening** climate governance and coordination mechanisms
 - **Supporting NDC updating and enhancement**
- **15 Partnership Plans to be completed in 2019**

KNOWLEDGE AND LEARNING

KNOWLEDGE AND LEARNING

Three Primary Ways

**Making it easier to access
knowledge resources**

**Supporting peer-to-peer
learning**

**Informing and inspiring
broader action**

FINANCE

FINANCE

The NDC Partnership supports members to mobilize and guide public and private finance through its in-country activities and its knowledge resources.

- Support countries to prioritize and communicate their **investment needs** to potential financing partners.
- Enhance country processes to capture and communicate relevant **investment opportunities** to its network and engage a wider range of potential public and private partners.
- Support countries to develop **strategies, implementing policies, and actions** that build effective enabling environments.
- Offer an organized set of **information resources and tools** to help countries learn how to access finance from diverse sources.

LOOKING FORWARD

Finance

- Expand capacity to support members in mobilizing and guiding public and private finance
- Facilitate access to finance outside of development cooperation frameworks
- Pilot activities to test best methods of finance mobilization
