

Guiding questions

- Lessons learned from the development and implementation of the TEC’s 2023–2027 rolling workplan that **could be replicated** in the preparation of the next workplan;
- How collaborative partnerships and stakeholder engagement have enabled the TEC to implement its rolling workplan;
- Guiding principles for the development of the next rolling workplan, including guidance on the **number of activities, the scope and nature of outputs, and expected levels** of engagement by TEC members;
- Guidance on the **process for the preparation** of the next TEC rolling workplan, including the establishment of ad hoc working group.
