

Agenda item 4 (b) ii. Long-term technological transition pathways

Update on TEC engagement in regional workshops on LT-LEDS

Technology Executive Committee, 29th meeting and TEC-CTCN Joint session
17-20 September 2024, Bonn, Germany

Thibyan Ibrahim, Chair, TEC

Context

TEC 28 agreement to engage in regional workshops on LT-LEDS preparation co-organized by UNFCCC Regional Collaboration Centers

Highlights

Engaged in three workshops in Africa and Asia from Apr-Aug 2024

Reached 500+ government representatives and other stakeholders

Shared work of the TEC that can help inform LT-LEDS development in the regions, including the TEC's work on NDCs, technology road maps, technology needs assessments and technology action plans
